3. The cost of acquiring and installing the necessary equipment will be approximately [redacted]. It is hoped that these items can be funded within the Office of Security's Technical/Physical Security FY-84 budget, which is programmed to cover some of the needed equipment. If it is determined that sufficient funding is not available as the enhancements proceed, internal reprogramming will be requested. It should be noted that a major technical/physical security enhancement effort took place during FY-83.
